Distance Learning

The good news is that our distance learning plan works, and it works well! Students continue to learn by completing work assigned by teachers, asking questions via phone and video chats, and by doing their best on tests. Dear parents, a huge thank you goes to you for your patience and great effort in supporting your children through this process. Unfortunately, as per our Governor's decision, the school doors will remain closed for the rest of the school year. That being said, all Oregon schools including SOWA, will continue to deliver educational content to their students via distance learning. Our plan is to finish the school year at the end of May. We will provide you more details once our decision is finalized.

State Testing (Iowa testing)

As you know, all students from 3rd grade and up are required to be state tested. However, given the health crisis that the entire country is suffering from, state testing will be waived for this school year.

Yearbook

Our staff has made a great effort to ensure that your children will still have great memories to take away from this school year. You will have the opportunity to order a 2019-2020 yearbook online at: ybpay.lifetouch.com. Please use ID Code 13767820. If you have any difficulties ordering the yearbook, you may contact Alla at (503) 816-5707. All orders must be in by **April 30th**.

Please Be Advised!

Students must start their day with prayer and Bible reading and be ready to work on daily assignments at 9am. Starting Monday, all completed assignments must be turned in to teachers by 4pm. Teachers' work day is between 8 am-4pm and we ask families to please be mindful of teacher personal time.
